GHANA AI INNOVATION CHALLENGE

An action research challenge for data scientists, technologists, researchers, and innovators to develop AI-powered solutions using Ghanaian datasets. Organised by Ghana AI Summit, Knowledge Innovations, Ghana AI Research Network (GAIN) and partners. This action research challenge invites data scientists, technologists, researchers, and innovators to develop AI-powered tools and solutions using Ghanaian datasets.

The challenge aims to:

- Harness collective innovation to address local challenges using AI
- Foster collaboration between technologists, domain experts, and practitioners
- Generate actionable insights from Ghanaian data sources
- Showcase the potential of AI to solve pressing problems in the Ghanaian context
- Problem Domains :
 - Agriculture
 - Healthcare
 - Financial Inclusion
 - Public Services
 - Education

Note: Solutions addressing challenges outside these domains may also be considered if they demonstrate clear relevance to the Ghanaian context.
